Indulge in the extraordinary and set sail towards a new world of comfort, convenience, and elegance. Discover a realm where cutting-edge technology seamlessly integrates into your yacht, allowing you to curate the perfect ambiance and immerse yourself in a world of captivating entertainment.

Join us as we embark on a new era of yachting experience, where innovation and sophistication set sail together.

Immerse yourself in the seamless integration of technology and elegance as your yacht evolves into a smart haven. With our advanced automation system, every aspect of your onboard environment is at your command. From climate control to lighting, security to entertainment, our smart home solution ensures effortless control over every feature, all at the touch of a button or even a simple voice command.

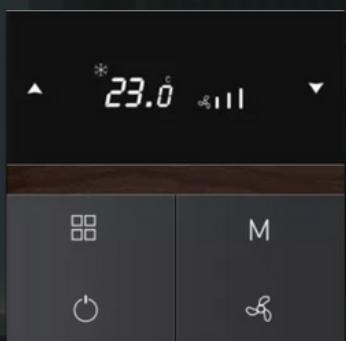

Home Control Center

Super Panel

Cube Series Temperature Control panel

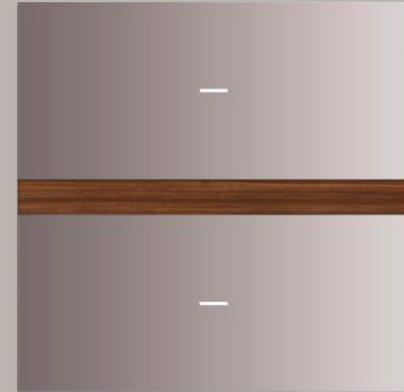

Temperature Control Panel

Experience the pinnacle of comfort and convenience with our state-of-the-art temperature control system for yachts. Say goodbye to fluctuating temperatures and hello to personalized climate settings. Whether you're sailing through tropical waters or exploring cooler destinations, our smart technology effortlessly adjusts the onboard environment to your preferred temperature. Set the perfect ambiance for relaxation or entertainment, ensuring every moment on your yacht is a truly exceptional experience.

As you gaze out at the stunning vistas from your yacht, control the level of natural light and privacy with our intelligent window shading system. Effortlessly adjust the shades to filter sunlight and create the desired ambiance. Enhance your comfort and protect valuable furnishings from the harsh glare of the sun, all while maintaining breathtaking views of the open sea. With our smart home technology, every aspect of your onboard experience is curated to perfection.

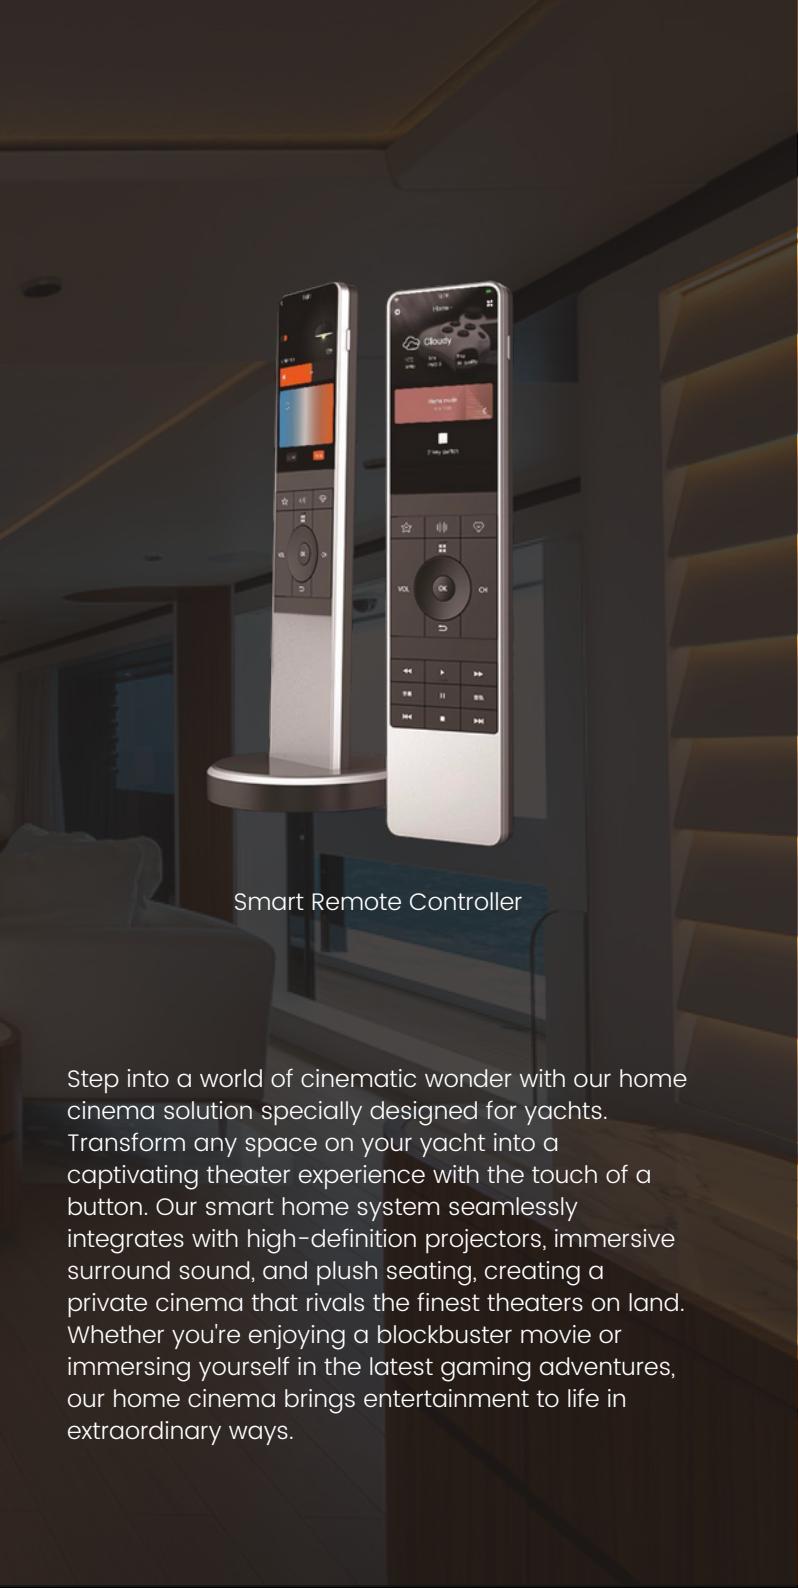

Two-way Switch

Three-way Switch

Four-way Switch

Smart Remote Controller

Step into a world of cinematic wonder with our home cinema solution specially designed for yachts. Transform any space on your yacht into a captivating theater experience with the touch of a button. Our smart home system seamlessly integrates with high-definition projectors, immersive surround sound, and plush seating, creating a private cinema that rivals the finest theaters on land. Whether you're enjoying a blockbuster movie or immersing yourself in the latest gaming adventures, our home cinema brings entertainment to life in extraordinary ways.

GYM Monster

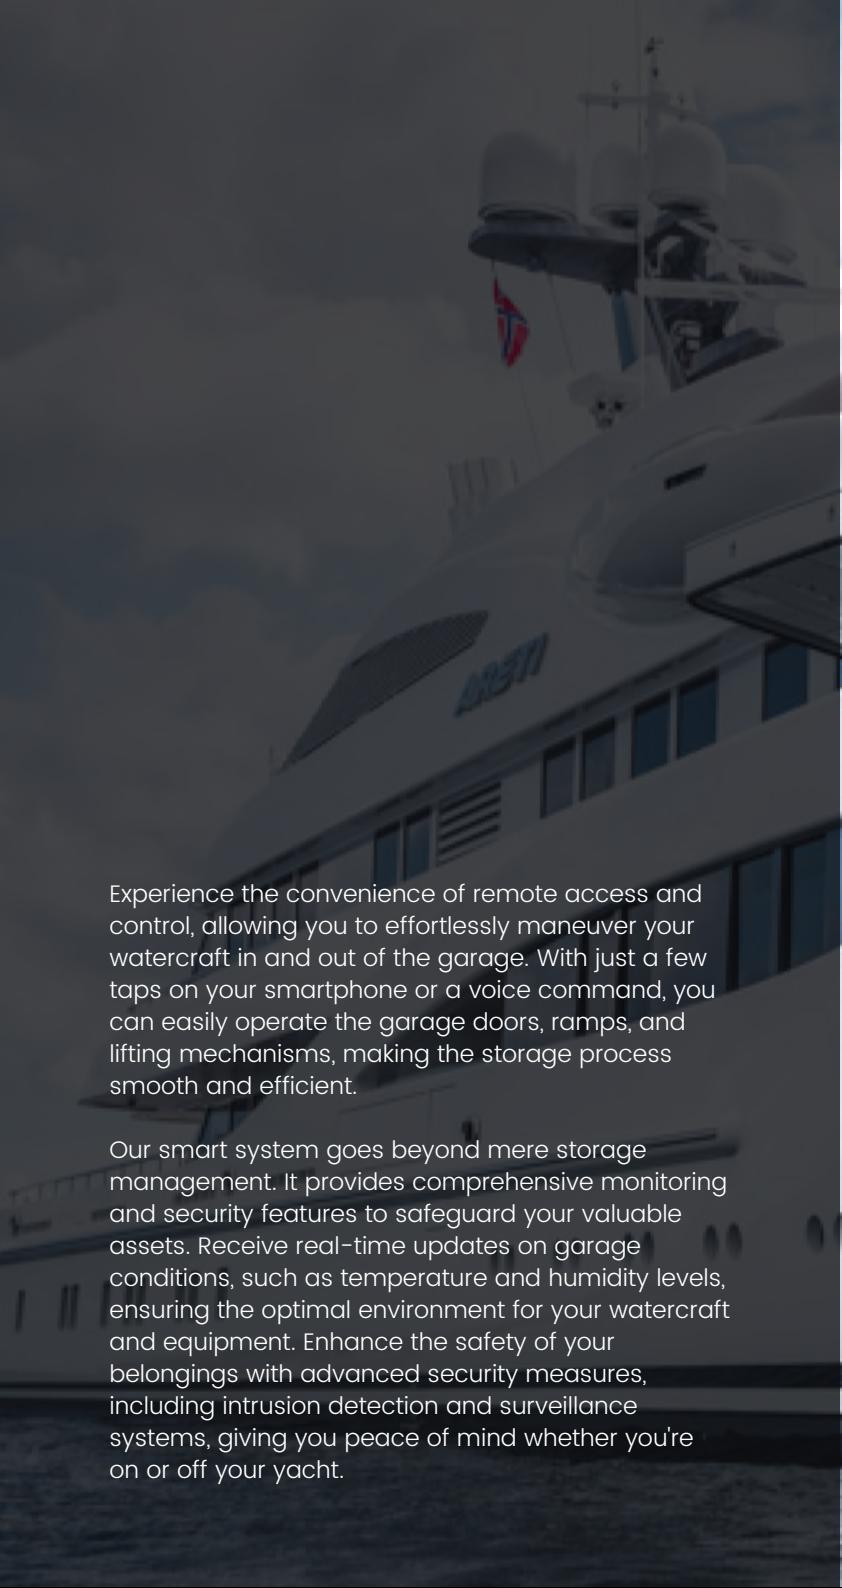

Discover the ultimate all-in-one fitness solution that revolutionizes the way you train, specifically designed to enhance your experience on yachts. Our innovative system provides a compact and versatile fitness solution, making it ideal for the limited space onboard.

With its all-in-one design, our fitness system minimizes the need for multiple accessories, allowing you to maximize the use of your yacht's available space. Whether you're sailing through tranquil waters or exploring remote destinations, our compact system ensures that you can maintain your fitness routine without compromising on comfort or convenience.

This space-saving feature is particularly advantageous, as our smart home gym can be easily folded when not in use, providing you with a clutter-free environment and ensuring that your yacht maintains its sleek and elegant aesthetics.

Stay fit and energized while sailing the open waters with our smart gym equipment. Designed to optimize your workouts, our intelligent fitness solutions offer a range of customizable routines and training programs tailored to your preferences and goals. Monitor your progress, track your vital statistics, and receive real-time guidance to achieve your peak performance. From top-quality cardio machines to interactive strength training equipment, our smart gym ensures that your fitness journey remains uninterrupted, even while cruising on your yacht.

Experience the convenience of remote access and control, allowing you to effortlessly maneuver your watercraft in and out of the garage. With just a few taps on your smartphone or a voice command, you can easily operate the garage doors, ramps, and lifting mechanisms, making the storage process smooth and efficient.

Our smart system goes beyond mere storage management. It provides comprehensive monitoring and security features to safeguard your valuable assets. Receive real-time updates on garage conditions, such as temperature and humidity levels, ensuring the optimal environment for your watercraft and equipment. Enhance the safety of your belongings with advanced security measures, including intrusion detection and surveillance systems, giving you peace of mind whether you're on or off your yacht.
